

Community Impact Management

e-Clmpact™ is an easy to use web-based Community Investment software solution, specially designed to help nonprofit organizations manage multiple grant, initiative, and outcome reporting processes.

## Streamline the Entire Community Investment Process

e-Clmpact™ supports the complete Community Investment, grant management and performance measurement reporting process. Agencies and reviewers have access to their personalized and secure website which allows them to access information associated specifically for them.

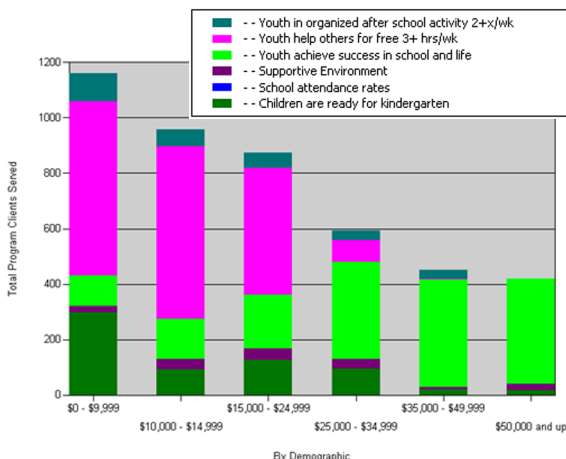

- ✿ Spend more time **cultivating relationships** to target programs that align to your community impact areas; obtain the results your donors expect making your community a better place.
- ✿ **Increase staff efficiency**, while minimizing the duplication of data entry and reducing paper.
- ✿ **Increase accuracy** of data through use of required fields, character limits, auto-calculations, and section balancing.
- ✿ Easily track progress of applications and forms, and **enforce submission deadlines**.
- ✿ **Analyze your data** and compare program outcomes; identify which programs are most effective at achieving desired results.
- ✿ **No servers to buy and maintain**; we host e-Clmpact on servers at a top-notch managed hosting facility. We take care of maintaining the servers, of backing up data, of providing disaster recovery, and much, much more. All you need is an internet connection.
- ✿ Customer care team that is there for you! No charges for **'premium support.'** With e-Clmpact, first class support is included for every customer, without any hidden charges or extra costs.
- ✿ **Affordable** and scalable pricing designed to fit the needs of your organization, regardless of size. e-Clmpact's subscription pricing includes everything you need.

*"The standard outcomes and indicators tool helps to collectively measure data that is useful not only to the organizations that are collecting the outcomes, but to the donors who are seeking information about the impact United Way is having on the community as a whole."*

- Dawn Helmrich  
Community Impact Manager  
United Way of Greater Milwaukee

## Compare Programs - Analyze Results

The Report Builder enables you to create reports and charts utilizing a user-friendly model of your data. Simply drag and drop report elements from the data model to the design surface, set constraints to filter the data by and run the report.

e-Clmpact's Report Builder provides a powerful data analysis tool that easily fosters the creation of graphs and charts to visually communicate IMPACT!

Over 70 report templates are included to jump start your custom report creativity.

- ✿ Ease of Use
- ✿ Fast Deployment
- ✿ Simple Customization
- ✿ NO Technical Experience Necessary
- ✿ Flexible and Scalable
- ✿ Affordable, NO HIDDEN COSTS!

## Make Informed Decisions with Easy Access to Data

e-Clmpact is a web-based system with a wealth of customizable and user-defined features that supports the complete Community Investment, grant management and performance measurement reporting process. Agencies and reviewers have access to their personalized and secure website which allows them to access information associated specifically for them.

Software As A Service (SaaS) means we manage all the technology for you. You do not need to invest in expensive software, hardware or IT staff. An internet connection is all you need!

Manage **multiple application and performance reporting processes concurrently**, enabling your organization to implement online application and report submission, evaluation, and allocations for community partners, special grants and initiatives.

Configure **open solicitation, restricted, or hybrid investment / grant processes**. In open solicitation processes, agency validation for non-profit EIN is available.

**Easily create an unlimited variety of data collection forms** based on form templates such as narrative, budget and statistic matrixes, logic model and performance measurements.

**Flexible performance measure form** may be configured as a traditional logic model or results based accountability form.

Ability to align programs with your community impact areas, goals, **standard outcomes and standard indicators**.

Application and performance reporting packets can be configured with a variety of **required or optional forms and file attachments**.

The use of **context sensitive help** provides agencies with all the information they need, when they need it.

Provide efficiencies to agencies by **pre-populating select data fields** on application and measurement reporting forms from previously entered data.

**Customizable email alerts** advise agencies, evaluators, and staff of completed tasks and successful submittals.

**Recruit volunteers** to participate in the evaluation process from your community. Individuals can apply to participate online.

**Flexible evaluation configuration** options allow for applications to be assigned to reviewers individually or in groups.

Reviewers have access to an **executive summary of key data elements**, in addition to the detail of the full application and file attachments online.

Reviewers submit scores and comments through your organization's **custom evaluation form** online.

Reviewers can **post questions to agencies** online. Responses to questions can be shared with other reviewers.

Funds from a variety of sources can be allocated to programs and projects.

**Break-out allocation awards** by geographic areas and collaborating agencies.

Easily make and **track adjustments** made to allocation amounts.

With robust **role and rights based security**, your organization can control what each user can see and what each user can do in e-Clmpact.

**Improve communication** with all or pre-defined groups of agencies and reviewers through email broadcasts, news items published to the homepage of their personalized website, and documents posted to the virtual resource center.

Efficiently manage the workflow of agency and program **site visit scheduling**. Agencies can reserve a time-slot, and reviewers may sign-up online drastically reducing the administrative tasks of site visit scheduling.

**Communicate meetings**, distribute agendas, electronically track RSVPs, and record attendance online.

The **report wizard** enables you to easily and quickly generate a multitude of reports based on over 65 reports that may be viewed online or **exported to PDF, tab delimited, CSV, or XML**.

**Create custom reports** and charts utilizing a user-friendly model of your data. Simple drag and drop report items from the data model to the design surface, set constraints, and save and run the report. **Over 70 report templates are included to jump start your custom report creativity**.

### First-Class Customer Service!

Need help using e-Clmpact? Have a question you'd like immediate assistance on? No problem! Call, email, or chat with us and help is available immediately. Our clients consistently receive the assistance they need fast - and on the first call.

All of our clients receive superior support. Seabrooks excels in customer support and we are very proud of the reputation we are known for in this area. We get to know our customers and are here not only as a place to get a question answered but as a colleague to go to for SUPPORT.

There are no additional charges for "premium" support - every single client of e-Clmpact receives first class support; enjoys enhancements and upgrades; and a commitment by Seabrooks to add new functionality suggested by our users. You want it, we deliver!

### All Inclusive - No Hidden Costs!

e-Clmpact pricing consists of an initial one-time setup fee and a monthly subscription. e-Clmpact's subscription fee is scalable, based on usage of the system; enabling the smallest to the largest organization to benefit from a full featured implementation of e-Clmpact.

With e-Clmpact you will be free to focus on your core business and community issues without having to worry about technology infrastructure requirements, maintenance, and upgrades.
